

# MOSQUE AND STEEL WORKSHOPS

**Client:** Private Engineering Office

**Category:** Public & Administrative

**Value:** QR 11 million

**Consultant:** Arab Consulting Engineers

**Built-up area:** 2800 m<sup>2</sup>

This design-build project involved the design and construction of a 600-person capacity mosque and three steel workshops, along with all infrastructure works. The workshops alone have a built-up area of 1,800 m<sup>2</sup> each.

The entire project was executed in six months, including the time required for mobilization.
